**Coldjet Aero 2 PCS 60**  
**Like NEW**

**For Full Listing: [Click Here](#)**

The Aero2 Series provides you with performance options. Choose the machine that is best suited for your unique application. The PCS 60 gives you complete control of particle size and unrivaled precision and application versatility.

The Cold Jet PCS® 60 utilizes finely controlled particles of dry ice as a blasting medium, via proprietary and patented Particle Control System™ (PCS). The Aero2 Series PCS 60 accepts 3mm pellets as input and, via the PCS, precisely cuts the dry ice into diamond shaped particles in the exact dimensions chosen by the operator.

The User has the capability to choose dry ice particle size from 3mm to 0.3mm and every size in between. The user has complete control and can fine-tune the most effective setting for each unique application.

### Specifications

Length x Width x Height: 39 in x 19 in x 45 in

Weight: 251 lb

Input Voltage: 110/230V AC

AMPS: 4.3

Hopper Capacity: 60 lb

7" LCD Color Screen

Feed Rate: Variable - up to 4 lb/min

Dry Ice Particle Size: Input: 3mm ; Output: 3mm - 0.3mm

Blast Pressure Range: 20 - 145 psi

Compressed Air Supply: 40 - 145 psi

Nozzle Air Consumption: 12 - 100 cfm at 80 psi

Blast Flow Path: 3/4" Straight Through Tubing

### Coldjet Aero2 PCS 60 Dry Ice Blasting system is complete with the following equipment

- 1 Coldjet Aero2 PCS 60 Dry Ice Blasting Machine
- 4 Air Supply Hose
- 1 1 1/4" Blast Hose
- 1 1"x 20' Hybrid Flex Blast Hose
- 1 Aero2 Performance Applicator
- 1 323V1 1" Fragmenting Blast Nozzle
- 1 523S3 3" Blast Nozzle
- 1 523S1 1" Blast Nozzle
- 1 Anti-Static Cable
